Microsoft Azure Fundamentals AZ-900 Exam Prep

Cloud computing is rapidly expanding into all areas of businesses, creating new and exciting career opportunities. These opportunities cover a broad range of roles, from developers and architects to security professionals and data scientists. This program provides the knowledge, skills, and confidence to begin your Microsoft Azure certification journey. This Microsoft Azure Fundamentals AZ-900 Exam Prep Specialization consists of four courses that will help prepare you for the AZ-900 certification exam and for a career in the cloud. This program covers Microsoft Azure concepts, including core Microsoft Azure services, solutions and management tools, security measures, and governance, privacy, and compliance features. It's ideal for anyone wanting to learn more about Microsoft Azure.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
